I. PLATFORM AT A GLANCE

What is ImariPlus?

ImariPlus is an all-in-one digital business management platform developed by LTGS RWANDA PLC. It brings essential business activities into one connected workspace so that teams can organise records, manage day-to-day transactions and review business performance without depending on disconnected tools and manual files.

The solution is designed for micro and small businesses, SMEs, retail shops, service providers, trading companies, growing organisations and industrial enterprises. Its subscription structure allows a business to start with core operations and progress to broader enterprise management when additional capabilities are needed.

CENTRALISE RECORDS

Bring customer, product, sales, payment and expense records into one digital environment.

IMPROVE VISIBILITY

Use reports and a reporting centre to review business activity and support better-informed decisions.

GROW BY STAGE

Choose a Standard plan for core operations or Beta for additional people, finance and office workflows.

2. CORE FUNCTIONALITY

IMARIPLUS STANDARD: THE 12 CORE MODULES

The pricing configuration describes every subscription from Starter Business to Business Beta Elite as including the full ImariPlus Standard suite. The Standard subscription tier indicates the intended scale of the business; Beta adds the advanced modules shown on page 2.

CODE	MODULE	WHAT IT SUPPORTS
CUS	Customers Registry	Maintain customer contact details, TIN information and account status.
P/S	Products & Services	Organise the catalogue, pricing, tax classes, discounts and stock-related information.
INV	Sales & Invoices	Create sales records, invoices and proforma invoices; track balances due.
LNK	Linked Sale Items	Link related sale items to keep transaction records organised.
PAY	Payments Registry	Record customer payments, payment channels and transaction references.
BNK	Bank Accounts	Maintain business bank account details, balances and reconciliation records.
EXP	Business Expenses	Record operating expenses and disbursements with recipients, types and status workflows.
RPT	Reports Registry	Keep organised report records for review and follow-up.
ANA	Reporting Center	Review reporting views for sales, expenses, customers, products, payments and business summaries.
USR	Users & Access Control	Manage system users and control access according to assigned responsibilities.
CMP	Compliance Registry	Maintain structured compliance-related business records.
SUB	Subscriptions & Billing	Review subscription and billing information associated with the ImariPlus service.

3. PLATFORM STRUCTURE

CHOOSE THE SUITE THAT FITS YOUR OPERATION

ImariPlus Standard provides the core tools for running daily business operations. ImariPlus Beta includes the complete Standard suite plus selected advanced modules.

The Beta plan determines which of the 16 additional modules are included.

STANDARD AND BETA AT A GLANCE

DIMENSION	IMARIPLUS STANDARD	IMARIPLUS BETA
CORE FUNCTIONALITY	All 12 Standard modules: customers, products/services, sales, payments, expenses, reporting, users, compliance and billing.	Includes every Standard module, plus advanced modules according to the selected Beta subscription.
SUBSCRIPTION PLANS	6 plans from Starter Business to Enterprise Plus.	3 plans: Business Beta, Business Beta Pro and Business Beta Elite.
BEST FIT	Micro shops, small shops, growing companies, workshops and larger industrial operations.	Growth enterprises, multi-department organisations, and enterprises needing broader management workflows.
ADVANCED MODULES	The published Standard list contains the 12 core modules.	8, 12 or 16 Beta modules, depending on the plan selected.
TOP-TIER DISTINCTION	Enterprise Plus is positioned for large-scale, high-volume operations and compliance needs.	Business Beta Elite lists all Beta modules, unlimited usage and priority enterprise support.

BETA MODULE DIRECTORY

“Y” means included in that plan. A blank dash means it is not part of that plan.

Thank you!

ANNEXURE A: SUBSCRIPTION PRICING SCHEDULE

SUBSCRIPTION PRICING SCHEDULE

All prices below are published in Rwandan Francs (RWF). The quarterly and yearly figures are calculated using the pricing page's stated multipliers (monthly x 3 and monthly x 12); the supplied code does not apply an additional cycle discount.

A1. IMARIPLUS STANDARD PRICING

The intended business profile is taken from the published plan descriptions.

SUBSCRIPTION	INTENDED BUSINESS	MONTHLY (RWF)	QUARTERLY (RWF)	YEARLY (RWF)	INCLUDED FEATURE COVERAGE
Starter Business S1	Micro shops & boutiques	5,500	16,500	66,000	All 12 Standard core modules (see page 1). Designed for single-owner shops, kiosks and small boutiques.
Essential Business S2	Small shops & canteens	12,000	36,000	144,000	All 12 Standard core modules (see page 1). Designed for shops, canteens and mini-stores.
Professional Business S3	Small companies	25,000	75,000	300,000	All 12 Standard core modules (see page 1). For daily sales, multiple staff and basic financial reporting.
Advanced Business S4	Growth companies	52,000	156,000	624,000	All 12 Standard core modules (see page 1). For expanding teams, product ranges and reporting needs.
Enterprise Business S5	Small industries	110,000	330,000	1,320,000	All 12 Standard core modules (see page 1). Also described as Industrial Lite for workshops and light manufacturing.
Enterprise Plus S6	Large industries	158,000	474,000	1,896,000	All 12 Standard core modules (see page 1). Also described as Industrial Pro for larger, complex, high-volume operations.

A2. IMARIPLUS BETA PRICING

Every Beta plan includes the full Standard suite; the add-on modules are mapped on page 2.

SUBSCRIPTION	INTENDED BUSINESS	MONTHLY (RWF)	QUARTERLY (RWF)	YEARLY (RWF)	INCLUDED FEATURE COVERAGE
Business Beta B1	Growth enterprises	185,000	555,000	2,220,000	Standard Suite + Suppliers Registry, Payroll Registry, Employee Registry, Properties Registry, Leaves Registry, Mission Order, Staff Performance and Budgeting Board.
Business Beta Pro B2	Multi-department enterprises	253,000	759,000	3,036,000	Standard Suite + all 8 B1 modules, Customer Credits, Recurring Payment, Employee Salary and e-Tax Advisor (12 Beta modules total).
Business Beta Elite B3	Enterprise and industry leaders	374,000	1,122,000	4,488,000	Standard Suite + all 16 Beta modules, including e-Forms, Callers & Visitors, e-Office and e-Procurement; listed with unlimited usage and priority enterprise support.
<u>PRICING AND CURRENCY NOTES:</u>			<u>HOW TO APPLY GET SUPPORT:</u>		
The pricing interface supports monthly, quarterly and yearly billing. It also offers currency display using BNR average exchange rates; actual subscription billing is processed in RWF at the prevailing applicable rate on the payment date. Confirm any plan-specific usage limits, current terms and any applicable taxes directly with LTGS before subscribing.
